# Pricing & Features

PHRESHAPPS.com  
Custom Android and Iphone apps for small business

# Business Features

## One-Touch Calling and Emailing

Contacting you is that easy for your customers.

## Youtube Integration

Instantly show a YouTube channel to display all videos in the app.

## Social Media Integration

Easily integrate the most popular social media sites like Facebook, Twitter, LinkedIn or Google+

## Photo Gallery and Email Photo

Post all of your favorite photos and let your customers send their photos directly to you.

## Food Ordeing

Allow customers to order food with the option for delivery, pick-up, dine-in. Pay options: Cash, Google checkout, PayPal or CC via PayPal, and CC via Authorize.net

## Contact Information

Give customers multiple ways to contact your business. Phone, websites, email, and GPS directions.

## Testimonials

When used effectively, are a great tool to increase conversions rates on your mobile website!

## Mailing List

Use your app for a convenient method of lead capture or data collection.

## Email Form

Easily create an appointment, feedback or survey, contact form, etc.

## Listings

Add a direct link to your featured listings, sold properties, inside tours, Open Houses and more...

## Services

Display your services in one tab and create an easy navigation and a great user experience. Your customers will never leave your mobile website.

## Fan Wall

Create instant social proof by letting customers post comments to your Fan Wall. There is no greater spokesperson for your business than a happy client.

# Premium & Elite Features

## Loyalty Card

Virtual loyalty stamp card. Set the number of stamps a customer needs to receive special deals.

## Push Notifications

Send important messages about upcoming events, special offers or news alerts directly to your customer's mobile devices.

## GPS Directions

Make it easy for anyone with your app to find your location. This could be for one or many stores or for venues that constantly change their location.

## Mailing List

Use your app for a convenient method of lead capture or data collection.

## Music Store

Upload music files to app. Play music and sell tracks via iTunes or 7digital.

## GPS/QR Coupons

Reward customer loyalty for checking in or for making purchases. You set the number of times your customer rack up points on their "virtual punch card" before they get to redeem their special offer.

## Menu Integration

Display menu, good for single item entry, specific field for listing price.

## Make Reservations

Allow users to schedule appointments or make reservations. Appointment uploads to calendar with a built-in reminder.

## Convenient Functionality

Entice your customers to use YOUR APP to perform convenient functions for them, like a tip and mortgage calculator or QR code scanner.

## Event Listings

Organize and display all of your business events inside of your application.

## Members Login

The membership tab is a way for you to set a username & password for users to access your app. This feature can be a great way for exclusive groups to create mobile apps for their audience.

## Shopping Cart

Allow customers to search, view and purchase items. Orders can be emailed and printed out. Payment integration with PayPal, Google Checkout, Authorize.net and Cash.
