How to **Get Started**

Request a FREE consultation

First, let's schedule a time to speak and help you decide which plan is best for you. Next, (once you've selected a plan) we'll create a live working demo of your new app or mobile website. From there you can preview and share your DEMO with colleagues before you decide to submit your app to the iTunes App Store or Google Play making it available for your customers to download. The entire process will take approximately 4-6 weeks from start to finish.
